

NEW NATURAL ALTERNATIVES	CHEMISTRY	DESCRIPTION
Biopure™ GLDA	Tetrasodium Glutamate Diacetate	Highly effective chelating agent. Great metal ion binding & stable in wide range of pH. Biodegradable & low toxicity. Replacement for DTA, NTA, HEDP, DTPA, EDTA . Also can act as a preservative booster. Ask about our new technical information.
Jarcane™ 12	Dodecane	C ₁₂ renewable paraffin. Light nature & High spreadability. Alternative to Cyclopentasiloxane (D5). Alternative to Isododecane without drying out skin. Ask about our new technical information.
Jarcane™ 16	Hexadecane	C ₁₆ renewable paraffin. Provides shine, lubricity & light oil feel. Mineral oil & Isohexadecane replacement. Ask about our new technical information.
Jarplex™ MUR	Isopropyl Shea Butterate (and) Dodecane (and) Hexadecane	All natural make-up remover blend. Compatible with silicones, UV filters, other ester & oils, and waxes. Can be used in skin and hair as silicone alternative. Ask about our new technical information and performance testing details.
Jarplex™ SB60-DP	Distarch phosphate (and) Butyrospermum Parkii (Shea) Butter	Free-flowing powder ideal for aerosol and powdered applications, fat sensitive formulation and dry blends. Improves skin texture with shea benefits.
Jarplex™ SPG	Coco Glucosides (and) Shea Butter Glycerides	High performing conditioning additive for surfactant based cleaners. Enhances surfactant cleaners by providing a creamy lather with shea unsaponifiables. Adds pearlescence, opacity and increased viscosity.

NEW ACTIVES	CHEMISTRY	DESCRIPTION
Actique™ PGA	Sodium Polyglutamate	Fermentation derived active. Provides long lasting hydration and increased skin elasticity. Prevents water loss and increases NMF. Biodegradable & non-toxic.

NEW MILD SURFACTANTS	CHEMISTRY	DESCRIPTION
Aminosyl™ Anionics	Sodium Lauryl Sarcosinate, SLMT, SLG, SCMT, SCI, SCG	Nature-based anionic surfactant. Amino acid based. Sulfate free. Gentle cleansing & mild
Sucranov™ 318AN	Decyl Glucoside (and) Sodium Lauroyl Lactylate	Nature-based non-ionic surfactants. Natural alcohol & sugar based. Gentle cleansing and mild.
Sucranov™ SF	Sodium Cocoamphoacetate (and) Glycerin (and) Lauryl Glucosides (and) Sodium Cocoyl glutamate (and) Sodium Lauroyl Lactylate	Ready-to-use blend of mild surfactants with superior foam height and longer lasting foam. Excellent lather and high foam density. Conditions the skin. Sulfate free & environmentally friendly

NEW NATURAL CLAY BEADS	CHEMISTRY	DESCRIPTION
Jarbead™ Clay Beads	Montmorillonite, Illite, Kaolin, Jojoba Esters	Biodegradable and encapsulated, these natural clay beads are great alternatives to microbeads and deliver a two phased exfoliation treatment. Biodegradable and hypoallergenic. Naturally colored and three size options available. Six colors available.

NEW CUSTOM SERVICES	OPTIONS AVAILABLE	DETAILS
Private Label Masks <i>In Partnership with TechNature</i>	Cream, shaker, powder, peel-off, algi-twin, biocellulose, hydrogel, leaf, nonwoven face & body masks	As part of our custom manufacturing & services, we are offering full turn-key service for custom face masks. Proprietary formulations or off the shelf options. Packaging & labeling.

COMING SOON	OPTIONS AVAILABLE	DETAILS
JarChem Paraffin Waxes	Petrolatum, Microcrystalline Wax, Paraffin Waxes & Hydrocarbon Waxes, Synthetic Wax	Coming soon!
